Biosafety Cabinet and Incubator Access

Visitors of the Flow Cytometry Core may use Tissue Culture Room 209B if cells shall be incubated or manipulated under sterile conditions. Our use is restricted to the following units:

Biosafety Cabinet #6
Incubator #14

A small sign is posted on the Tissue Culture Room door, the incubator and the BSC as “Flow Core OK”. Please refrain from using other equipment in this room unless granted permission by the Stem Core Personnel working in Laboratory 205 and 209.
